

SIGNATURE JAM FLAVOR MAKER CHART

Basic Pectin Free Jam Formula

Makes about 4 half-pint jars of preserve

- 2 pounds washed and appropriately prepared fruit
- 4 to 8 oz. (a gently rounded ½ to 1 cup) organic sugar
- 1 tablespoon freshly squeezed lemon or lime juice
- ¼ teaspoon Dry Zing
- 1 tablespoon Wet Zing (*if using flavor extracts, such as Almond or Vanilla, use 1 teaspoon to start, as intensity can vary greatly by brand. You can always add more but it's impossible to take out.*)

Don't go picking multiple dry or multiple wet zing options until you have the basics down. You want zing, not a flavor muddle.

+ This flavor is a classic. You can't go wrong with this.

* This flavor can be particularly strong. You may want to go easy on the amount you add.

^ This flavor is daring. Best left in the hands of advanced flavor-makers.

Fruit	Dry Zing: Spice or Minced Herb	Wet Zing: Booze and Such
Apple	Allspice*, Cinnamon+, Ginger, Nutmeg, Cardamom, Clove*, Rosemary^, Black Pepper, Curry^, Lemon Zest, Five Spice Powder	Rum+, Whiskey & Bourbon, Calvados, Sherry, Madeira, Maple Syrup
